Introductory

The present volume for 1955 is the 49th edition of Henderson's Directory of Regina. The work embeddes a complete epitoms of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all parts and includes all essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organiza-tion and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume,

THE ALPHABETICAL DIRECTORY

THE ALPHARETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 126.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY at the back of the book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

REGINA POPULATION, in excess of 80,000

The Directory estimate of population is leased on the actual number of individuals' names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Regina Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Regina may be obtained.

ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educationic centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries where they are readily available for reference use by the public. There they serve as perpetual advertisements for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given is the way of patronage.

Respectfully. The Publishers, HENDERSON DIRECTORIES LIMITER.

Chief Sitting Bull made the first recorded visit to the present sits of when he arrived there in 1881 on his way to Wood Mountain where the Sioux mag, their head-quarters while seeking refuge in Canada after the Custer Sattle on the Little Big Horn in Montana. The locality had long been known to the natives as "Heap O' Bones," owing to the fact that a great pile of buffalo bones garnis the low hills nearby. The first settlers called the place "File O' Bones," and name appeared in official documents. The name, "Wascana," given to the running through the area is a corruption of the Cree word for File O' Bone

It was intended to name the place Victoria, in honour of the Queen, but a name had already been bestowed on the Capital of British Columbia. The matter was referred to Princess Louise, the daughter of Queen Victoria, whose husba

was then Governor General of Canada, and she selected the name "Regina." The city was named as the first train arrived at nine o'clock, August 23rd, 1882. A tent settlement had spring up in the spring of that year.

Regina was incorporated as a City in 1983, but the little community had already been the seat of Government of the North West Territories for twenty years. It became the Provincial Capital when Saskatchewan was formed in 1985.

At the time of its incorporation Regina had a population of 3,000. Today it has a population of an estimated 80,000. While not what might be called a large city, it is the fourteenth largest of all Canadian Cities. It may seem small for a Capital, but in Western Canada a city of 50,000 or more is often of greater significance from the point of view of commerce and distribution of goods than a city of several times the population in older countries.

Regina is the financial centre of the Province and It holds an important place in the life of Saskatchewan by virtue of the fact that it is the Capital and by the commercial and industrial development which has taken place within it.

Common Sense

About City Directory Circulation

- THE TRUE VALUE of advertising circulation is circulation consulted.
- TO BE EXACT by actual survey in Canadian cities—for each City Directory, an average of three and one half consultations were made for each business day
- TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.
- FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

 $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$

Consultations or Circulation Consulted

More than ninety per cent. of all advertising mediums are discarded before they're a year old

After the new ones come out your advertisement in the directory is still good, for old directories are seldom discarded while they hold together. Years later many of these directories will still be in active use. Your advertisement is still in service

Do you want LONG-LIVED advertising?

MEMORANDUM

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY Every Time It is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:-

There is a definite cost involved in the making of the **Directory** of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb
The Whole Cost.

If there were 1000 Subscribers—each one would have to absorb 1/1000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each.

Every time you loan your City Directory the Less Necessity there is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.

More than ninety per cent. of all advertising mediums are discarded before they're a year old

After the new ones come out your advertisement in the directory is still good, for o.d directories are seldom discarded while they hold together. Years later many of these directories will still be in active use. Your advertisement is still in service

Do you want LONG-LIVED advertising?

MEMORANDUM

Common Sense

About City Directory Circulation

- THE TRUE VALUE of advertising circulation is circulation consulted.
- TO BE EXACT by actual survey in Canadian cities for each City Directory, an average of three and one-half consultations were made for each business day.
- TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.
- FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

 $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$

Consultations or Circulation Consulted

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY Every Time It is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is

There is a definite cost involved in the making of the Directory of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb
The Whole Cost.

If there were 1000 Subscribers—each one would have to absorb 1/1000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each

Every time you loan your City Directory the Less Necessity there is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.
